LOOKING TO 2022

offroute storefront

Offroute Art Ltd is a registered 501c3
EIN 84-3546733

vision

Our strategic goal is to launch a nonprofit coffee shop and community space, where artists can display and sell their work, and we can offer jobs to the local community, with a priority towards BIPOC artists.

Offroute will host events, work with community partners, and offer additional programming and opportunities to artists and community members.

We hope the Pittsburgh storefront will be the first of several physical locations!

location

Offroute is looking for a Pittsburgh storefront in a diverse neighborhood without a coffee shop. We will cater to local residents, commuters, and visitors.

deeper impact

Our vision is to create and maintain a truly inclusive, welcoming space for all Pittsburgh residents. We believe that art, food, and supporting youth can bring people together and create community in ways that our city, and society, deeply need. We focus on uplifting 16 - 24 year olds so they can feel safe, supported, and empowered to help create a better world.

GOAL

To start the business off strong, we are raising $60k between now and 12/31/21.

Whether you are a friend of Offroute or a business, any amount will help significantly.

WHO ARE WE?

Run by educators, conflict resolution practioners, administrators, and artists, Offroute's origins come from this idea:
I wish there was something like this when I was younger.

Moreover, we aim to build community. We feel it is important for young adults coming into their own to have a safe, engaging space that connects them both with a greater mission and with one another.

fundraising

For our nonprofit business, we are launching an end-of-year campaign to cover start up costs and first year's rent. In addition to pursing grant opportunities and individual donors, we are hoping that individuals and businesses will invest in us and give back to the community in this meaningful way.
